

SEATTLE EMPLOYERS HOST AN INTERN AND MAKE A POSITIVE IMPACT THIS SUMMER!

The Seattle Youth Employment Program connects young people ages 16–24 with hands-on summer internships at local employers.

- Partner employers represent a variety of industries, including health care, real estate, technology, and more.
- Internships begin in early July and last until mid- to late-August.
- City of Seattle can provide up to 150 hours of paid employment and training, along with supportive services.
- **However**, while optional, employers who opt to fund even one internship help to increase the number of positions available to youth and young adults.

Interested in hosting an intern?

Complete our online form by March 13, and we will send you an application link.
