## **OIG EXP INV Certification Memo with Note**

OIG has reviewed the investigation for case number 2025OPA-0231. The investigation is certified as thorough, timely, and objective.

OIG notes a shove to a community member at the 4:08 mark of the NE's BWV was initially missed by OPA. After discussion, OPA has amended the 30 Day Language, bifurcated the case and added an additional Use of Force allegation.

Respectfully,

*Mary Prang*
